

Software Developer

Are you up for a real challenge? Do you like being involved in all aspects of product development? Are you passionate about the craft as well as the technology of programming?

We are a leading supplier of software and automation services to the global cement industry. Since 1985, we have provided advanced control, laboratory management and automated shipping systems around the world. We are successful because we listen to our customers, take pride in what we do, and have an amazing team!

We have positions for intermediate software developers to join our team and work on some new exciting and challenging projects! Your training and experience would include the following:

- Solid working knowledge of:
 - object-oriented programming languages such as C#
 - database management systems, especially Microsoft SQL Server
- Experience with:
 - porting legacy applications to .NET
 - developing rich web applications
- Proficient with:
 - integrated development environments, mainly Microsoft Visual Studio
 - database management tools.
- Diploma or degree from a recognized tertiary institution in Software Development, Computer Science, Computer Engineering or other relevant discipline
- 3 – 5 years of related experience or combination of relevant education and experience

Experience with any of the following is an asset:

- Reporting using SQL Server Reporting Services or Crystal Reports
- Source control tools such as Team Foundation Server, Git or Subversion
- Software design and testing methodologies

This is a full-time employee only role: contractors and placement agencies should not contact us regarding this role. You must have the right to work in Canada before applying for this position. Process Solutions is an equal opportunity employer.

We are a growing company with a unique market and technical specialty that offers a friendly, inclusive and interactive work environment. We offer our employees a competitive benefit package including an RRSP matching plan and the ability to wear jeans to work on any day that ends in “y”!

If you are passionate about your craft, we’d love to hear from you with a resume and cover letter via email outlining why you would be the perfect fit for our team. Send applications to
